

SUMMARY

I am a Computer Science undergraduate with knowledge of full-stack web development and web technologies. Skilled in React.js, Node.js, Express.js, and MongoDB, with experience building responsive and scalable web applications. Familiar with frontend and backend development, database management, debugging, and problem-solving. Interested in learning new technologies and developing efficient, user-friendly applications.

EDUCATION

- **Institute of Technology & Management (ITM) (RGPV Affiliated),Gwalior** *Madhya Pradesh, India*
B.Tech in Computer Science & Engineering ; GPA: 7.10/10.0 *2023 - 2027*
- **Green Field Higher Secondary School** *Gwalior, India*
Madhya Pradesh Board of Secondary Education (MPBSE - XII) *2023*
- **Green Field Higher Secondary School** *Gwalior, India*
Madhya Pradesh Board of Secondary Education (MPBSE -X) *2021*

PROJECTS

Wander Lust | (MongoDB, Express-JS, Node-JS and MVC) ([Link](#))

- Created a fully functional and responsive Travel and Hotel Booking Platform.
 - Enabling simplified, scalable onboarding and listing of new resort and hotel properties.
 - Spearheading upcoming platform enhancements, including the integration of user authentication (login). ●
- Complete booking transaction workflows, and automated digital receipt generation.

Stock Viewer | MERN Stack ([Link](#))

- Developed a full-stack stock viewer application using the MERN stack.
- Built responsive frontend components in React.js for displaying stock market data.
- Created backend APIs using Node.js and Express.js.
- Managed and stored application data using MongoDB.
- Integrated real-time stock data and deployed the project on Vercel .

TECHNICAL SKILLS **Full Stack Developer**

- **Languages** : JavaScript, Java, SQL , HTML, CSS
- **Technologies/Frameworks**: React.js , Node.js, Express.js, MongoDB, MVC (Model View Controller)
- **Developer Tools**: Vs Code, GitHub, Git, MongoDB - Compass/Atlas
- **Other** :Problem Solving, Debugging

ACHIEVEMENTS

- **Java Full Stack Developer Virtual Internship (Oct – Dec 2024) :-**
Successfully completed a comprehensive Virtual Internship in Java Full Stack Development (October - December 2024) hosted by EduSkills.
